RM𝄞

Podcast meets Broadcast

Focus on what matters most

Integrated mixing function and broadcast-proven plugins like EQ, Dynamics, and Automix handle your audio, so you can just focus on speaking.

Make it yours

Customize audio settings to match your style. User the web based control interface to create a unique sound that resonates with your audience.

Versatile possibilities

From inspiring podcasts and engaging interviews to dynamic live streams and even on-location recordings, our interface captures your unique voice and vision with crystal-clear audio.
